About STAPPA and ALAPCO

The State and Territorial Air Pollution Program Administrators (STAPPA) and the Association of Local Air Pollution Control Officials (ALAPCO) are the two national associations of air pollution control officials in the states, territories and major metropolitan areas throughout the country. The members of STAPPA and ALAPCO have primary responsibility for implementing our nation's air pollution control laws and regulations. The associations serve to encourage the exchange of information and experience among air pollution control officials; enhance communication and cooperation among federal, state and local regulatory agencies; and facilitate air pollution control activities that will result in clean, healthful air across the country. STAPPA and ALAPCO share joint headquarters in Washington, DC.

For further information, contact STAPPA and ALAPCO at 444 North Capitol Street, NW, Suite 307, Washington, DC 20001 (telephone: 202-624-7864; fax: 202-624-7863; e-mail 4clnair@4cleanair.org) or visit our associations' Web site at www.cleanairworld.org.

About STAPPA and ALAPCO's New Source Review Menu of Options

This document presents the final review draft of STAPPA and ALAPCO's New Source Review Menu of Options. The Menu of Options and the rule language through which the options are presented are the result of extensive discussion, deliberation and careful consideration by experts from state and local air pollution control agencies across the country, including a Technical Review Workgroup under the auspices of the associations' NSR Subcommittee.

STAPPA and ALAPCO are pleased to provide this important resource for state and local air pollution control agencies' immediate use as they respond to EPA's recent NSR rule revisions. This document is designed to assist states and localities as they consider revisions to their State Implementation Plans and NSR rules and engage in local stakeholder discussions. At the same time, STAPPA and ALAPCO invite comment and feedback on the alternative approaches and the specific rule language presented in this final review draft. Later this fall, the associations will convene a series of meetings with stakeholder groups to invite discussion on the NSR Menu of Options. Following the opportunity to hear from interested stakeholders, STAPPA and ALAPCO anticipate releasing a final document, including provisions for nonattainment NSR programs, by early 2004.

Table of Contents

PREAMBLE

	EXECUTIVE SUMMARY	P-1
I.	INTRODUCTION	P-6
	A. State and Local Discretion in SIP Development	P-7
	B. The STAPPA and ALAPCO NSR Menu of Options	P-8
II.	NSR PROGRAM HISTORY AND RECENT DEVELOPMENTS	P-10
